Tables 1–12 show the number of meetings held by, and the number of members of, each science advisory committee under six federal agencies between 1997 and 2017: the Centers for Disease Control and Prevention, Department of Interior, Department of Energy, Department of Commerce, Environmental Protection Agency, and Food and Drug Administration. This information was obtained from the Federal Advisory Committee Act Database (www.facadatabase.gov), managed by the General Services Administration, and reflects data recorded as of December 18, 2017.

Note: Hyphens denote that a committee had not yet been established or had been disbanded, whereas a “0” means that an active committee failed to meet. Blank cells denote nonexistent data in the FACA database. Data for the Board of Scientific Counselors, National Center for Environmental Health/Agency for Toxic Substances and Disease Registry excludes teleconference meetings. Meetings highlighted in red mean the committees met 50% or less than what their charter directs, meetings highlighted in orange means that committees met at least 51% of what their charter directs. White cells either met or exceeded their charter-directed meeting amounts. Gray cells represent a committee that was not active for those years.

Note: Hyphens denote that a committee had not yet been established or had been disbanded, whereas a “0” means that an active committee failed to meet. Blank cells denote nonexistent data in the FACA database. Meetings highlighted in red mean the committees met 50% or less than what their charter directs, meetings highlighted in orange means that committees met at least 51% of what their charter directs. White cells either met or exceeded their charter-directed meeting amounts. Gray cells represent a committee that was not active for those years.
